Welcome to ENRS' 30th Annual Scientific Sessions!

This year's theme is *Celebrating 30 Years of Nursing Science: Building a Legacy of Innovation, Dissemination and Translation*. The conference commences Wednesday, April 11 with Dr. Susan B. Hassmiller's keynote address on *'The Future of Nursing: Campaign for Action'*. Our Thursday, April 12 a Plenary Panel presentation will be a conversation on *Innovation, Dissemination and Translation* with ENRS nurse scientists Dr. Catherine Bender, Dr. Pamela Hinds, Dr. Patricia Eckardt and moderated by Dr. Zane Robinson Wolf. We are also excited to add a Closing Keynote delivered by Delaware Lt. Governor Bethany A. Hall-Long on Friday, April 13 on *'The Nurse Scholar's Policy Journey'*.

Other highlights of the 30th Anniversary program include: poster presentations from research scientists and clinical experts including the work of BS, MS, DNP, and PhD students; scientific series of peer reviewed podium, poster and symposium presentations; opportunities for consultation with funding representatives regarding opportunities; six stimulating workshops on cutting-edge research issues, and our Thursday night 30th Anniversary Dinner with presentations to our distinguished research awardees for 2018. In short, there will be an abundance of opportunities for learning, networking, sharing of ideas and celebrating!

I also encourage you to take part in the Research Interest Group (RIG) sessions. RIGs provide a wonderful opportunity to get involved or stay engaged with others with similar research interests. RIGs also provide a forum to make important contributions to the growth of nursing science in the northeast region. Current RIGs are: Aging; Bio-Behavioral; Chronic Comorbid Conditions; Comprehensive Systematic Review/Knowledge Translation; Criminal Justice, Trauma & Violence; CTSA Nurse Researchers; Early Career Nurse Scientists (ECNS); Evidence-Based Practice Improvement; Family/Community-Based Participatory; Global Health; Health Services; LGBTQIA Health and Health Disparities; Nursing Research in Clinical Settings; Palliative Care; Qualitative Research; Spiritual Health; and Theory Development. In the event that there is a need for a RIG that could represent other areas of research interests, I welcome you to submit an application to develop and sustain a new one.

In addition, I hope that you will attend the ENRS *All Member Meeting* from 5:30– 6:30 PM on Wednesday, April 11. At this time, updates on new initiatives and activities of ENRS will be provided, newly elected officers and newly elected or appointed committee members will be introduced, and outgoing officials will be recognized. There is an open microphone during the *All Member Meeting* so members can feel free to ask questions and share insights. We welcome open conversation. Also be sure to attend the Closing Awards Ceremony on Friday morning April 13th where we will recognize outstanding presenters.

It takes a committed and engaged team to plan for and execute a successful conference. Thank you to our Conference Planning Committee, chaired by President-Elect Dr. Victoria Vaughan Dickson, our abstract reviewers, abstract slotter, session moderators/supporters, and our management team at Fernley & Fernley. All are greatly appreciated for their considerable work on a variety of critically important and time-consuming endeavors.

Finally, I extend my gratitude for the generous financial support of our legacy, sustaining, strategic, supporting and collaborative partners, conference sponsors, and exhibitors — their contributions are critical to delivering a meeting of this caliber. Each year our financial supporters become more and more generous matching the growth and success of each of our scientific sessions. I encourage you to visit the exhibit hall to view the many vendors' products, services, and opportunities in personal and professional development.

Best wishes for a rewarding and memorable time at the 30th Annual Scientific Sessions! For those who are coming to their first ENRS conference, thank you, and come back to join our growing group of those passionate in creating knowledge and using that knowledge in to improve health of individuals, families, and communities.

Last, thank you for supporting me as your President from 2016-2018. I am sure that Dr. Victoria Vaughan Dickson and her incoming Board will continue to propel us forward in "Promoting Health through Nursing Science".

Sincerely,

Rosanna F. DeMarco, PhD, RN, PHNA-BC, FAAN  
President, Eastern Nursing Research Society

## The Objectives for the ENRS 30th Annual Scientific Sessions are:

1. Examine innovative programs of research in which nursing perspectives have made significant contributions to advancing the quality of care to individuals, families and communities.
2. Propose innovative strategies for dissemination and translation of nursing science into practice.
3. Explore theoretical and methodological perspectives of nursing science including dissemination and translation of nursing science into practice.

## Conference Highlights

- **Opening Keynote Speaker:**  
Susan B. Hassmiller, RN, PhD, FAAN, Senior Advisor for Nursing at Robert Wood Johnson Foundation
- **Thursday Plenary Panel Session Speakers:**  
Moderator: Zane Robinson Wolf, PhD, RN, FAAN, La Salle University School of Nursing and Health Sciences;  
Panelists: Catherine Bender, PhD, RN, FAAN, University of Pittsburgh, School of Nursing; Pamela Hinds, PhD, RN, FAAN, Children's National Health System; Patricia Eckardt, PhD, RN, The Rockefeller University
- Six Workshop Sessions
- Awards for Early (Pre-Dissertation) Doctoral Student & DNP Student Poster Presentations
- Awards for BS/MS Poster Presentations
- **30th Anniversary Celebration Dinner**
- **Closing Keynote Speaker:**  
Delaware Lt. Governor Bethany A. Hall-Long, PhD, RNC, FAAN
- Awards for Peer-Reviewed Paper & Poster Presentations by Doctoral Students
- Opportunities to network with colleagues from academic and clinical settings

# Acknowledgement of Commercial Support

## Acknowledgement of Financial Commercial Support

No financial commercial support was received for this educational activity.

## Acknowledgement of In-Kind Commercial Support

No in-kind commercial support was received for this educational activity.

## Satisfactory completion

Participants must complete an evaluation form to receive a certificate of completion. Your chosen sessions must be attended in their entirety. Partial credit of individual sessions is not available. NOTE: If you are seeking continuing education credit for a specialty not listed below, it is your responsibility to contact your licensing/certification board to determine course eligibility for your licensing/certification requirement.

## Nurses

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and the Eastern Nursing Research Society. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team. Credit Designation Statement – Amedco LLC designates this live activity for a maximum of **15.25** contact hours for nurses. Learners should claim only the credit commensurate with the extent of their participation in the activity.

## Objectives — After attending this program you should be able to:

1. Examine innovative programs of research in which nursing perspectives have made significant contributions to advancing the quality of care to individuals, families and communities.
2. Propose innovative strategies for dissemination and translation of nursing science into practice.
3. Explore theoretical and methodological perspectives of nursing science including dissemination and translation of nursing science into practice.

## Disclosure of Conflict of Interest

The following table of disclosure information is provided to learners and contains the relevant financial relationships that each individual in a position to control the content disclosed to Amedco. All of these relationships were treated as a conflict of interest, and have been resolved. (C7 SCS 6.1 – 6.2, 6.5)

All individuals in a position to control the content of CE are listed in the program book. If their name is not listed below, they disclosed that they had no relevant financial relationships.

First Name	Last Name	Commercial Interest
Karen	Giuliano	Ivenix: Consultant
Marilyn	Hammer	MedScape: Other Financial or Material Support
Jena	Shaw Tronieri	Novo Nordisk: Consultant
Christopher	Smith	Merck: Research Grant Overall Principal Investigator
Patricia	Stone	CDC, NIH: Research Grant Overall Principle Investigator
Thomas	Wadden	Novo Nordisk: Scientific/Medical Advisory Board Member

# Eastern Nursing Research Society Presents the 2018 Annual Award Recipients

Christine Kovner,  
PhD, RN, FAAN

## THE DISTINGUISHED CONTRIBUTIONS TO NURSING RESEARCH

**AWARD** is given annually in recognition of sustained and outstanding contributions to nursing research by a Senior Investigator. The Awards Committee is proud to honor **Christine Kovner, PhD, RN, FAAN, New York University; and David Vlahov, PhD, RN, FAAN, Yale University School of Nursing** with the 2018 Distinguished Contributions to Nursing Research Award.

David Vlahov,  
PhD, RN, FAAN

## THE SUZANNE FEETHAM NURSE SCIENTIST FAMILY RESEARCH

**AWARD** is given annually in recognition of outstanding contributions by a Junior Investigator (earned doctorate in last 7 years with a developing program of family research and scholarship) OR Senior investigator (has a well-established program of family research and scholarship). The Awards Committee is proud to honor **Helene Moriarty, PhD, RN, PMHCNS-BC, FAAN, Villanova University M. Louise Fitzpatrick College of Nursing and Corporal Michael J. Crescenz VA Medical Center**, with the 2018 Suzanne Feetham Nurse Scientist Family Research Award.

Helene Moriarty,  
PhD, RN,  
PMHCNS-BC,  
FAAN

## THE ENRS/COUNCIL FOR THE ADVANCEMENT OF NURSING SCIENCE DISSERTATION

**AWARD** is given annually to a doctoral candidate enrolled in a program of nursing that awards a research doctoral degree requiring a dissertation. The Awards Committee is proud to honor **Mallory Perry, MS, BSN, RN, CPN, University of Connecticut School of Nursing; Connecticut Children's Medical Center (PICU)**, with 2018 ENRS/Council for the Advancement of Nursing Science Dissertation Award.

Mallory Perry, MS,  
BSN, RN, CPN

## THE RISING STAR RESEARCH

**AWARD** recognizes a Junior Investigator that has shown promise in establishing a program of health and/or nursing research. The Awards Committee is proud to honor **Victoria Pak, PhD, RN, MS, MTR, Emory University, School of Nursing**, with the 2018 Rising Star Research Award.

Victoria Pak, PhD,  
RN, MS, MTR

Pamela de Cordova,  
PhD, RN-BC

## THE ENRS/NURSING RESEARCH

**AUTHORSHIP AWARD** recognizes an ENRS member who disseminated research findings, or important theoretical, or methodological advances in the official ENRS Journal, Nursing Research, within the previous year (2017). The Awards Committee is proud to honor **Pamela de Cordova, PhD, RN-BC, Rutgers, the State University of New Jersey**, with the 2018 ENRS/Nursing Research Authorship Award.

Susana Dealmeida,  
ADN, BSN, MHS

## THE EVIDENCE BASED PRACTICE

**AWARD** is given to an individual or a nurse led group using research-based evidence to make a practice change that results in demonstrated improvement in outcomes for the patient and family, staff, community, or organization. The Evidence-Based Practice Award is designed to encourage the use of best practices to improve the safety and quality of patient care or the improvement of patient care systems. The Awards Committee is proud to honor **Susana Dealmeida, ADN, BSN, MHS, Northern Westchester Hospital** with the 2018 Evidence-Based Practice Award.

Karen B. Lasater,  
PhD, RN

## THE PRESIDENTS' CIRCLE RESEARCH

**AWARD** promotes collaborative/partnership driven innovative research specifically between academic and practice settings. This research award supports joint research initiatives that are responsive to the challenges within health care and are important to the discipline of nursing, patients, families, communities and/or populations. The awards committee is proud to honor **Karen B. Lasater, PhD, RN, University of Pennsylvania School of Nursing and Rebecca Trotta, PhD, RN, University of Pennsylvania School of Nursing** with the 2018 Presidents' Circle Research Award.

Rebecca Trotta,  
PhD, RN

<b>12:30 PM – 2:15 PM</b>	<b>Opening Remarks &amp; Opening Keynote Presentation The Future of Nursing: Campaign for Action</b>	<i>Salons 4-8</i>

This presentation will provide an overview of The Future of Nursing: Campaign for Action and how nurses are working to enable people to live healthier lives and experience greater well-being. Dr. Hassmiller will describe how research has helped to advance the Institute of Medicine recommendations on the future of nursing and build healthy communities. She will discuss how doctoral programs can contribute to health care improvements through the development of knowledge and scholarship that advance nursing science and translate research into practice. In addition, she will describe how research dedicated to improving quality care can affect national, global, and system change through policy.

### Learning Objectives:

At the conclusion of this presentation, attendees will be able to describe:

1. The goals of The Future of Nursing: Campaign for Action and progress made in advancing the Institute of Medicine recommendations on the future of nursing.
2. Examples of how nursing research has helped to advance the IOM recommendations on the future of nursing and keep communities healthier.
3. Examples of how nursing research focused on improving quality care can result in policy changes.

**Presenter:** *Susan B. Hassmiller, RN, PhD, FAAN, Senior Advisor for Nursing, Robert Wood Johnson Foundation*

### 2:30 PM – 3:30 PM Concurrent Workshops

<b>Workshop 1:</b> Changes in the Common Rule: What Nurse Researchers Need to Know  <i>Salons A-C</i>	<b>Workshop 2:</b> Establishing and Maintaining a Research Career: A Panel Discussion with Experts along the Path <i>Columbia/Holland/Lincoln</i>	<b>Workshop 3:</b> International Collaboration in Nursing Research  <i>Essex/Liberty</i>	<b>Workshop 4:</b> “Oh the places you’ll go...” Adventures of Early Career Nursing Scientists, presented by the ENRS Early Career Nurse Scientists Interest Group <i>Skylands/Gateway</i>	<b>Workshop 5:</b> Funding Opportunities: Strategies for Success  <i>Salons 1-3</i>	<b>Workshop 6:</b> Publishing: Methods Matter!  <i>Salon D</i>
--	---	---	---	--	---

### Workshop 1: Changes in the Common Rule: What Nurse Researchers Need to Know

*Salons A-C*

Changes in the regulations for human subjects’ research and how they may help researchers will be presented. An overview of the regulations, changes in the Common Rule, and a discussion on the procedural and substantive issues that IRB reviewers debate, that may impede nurse researchers, will be discussed.

### Learning Objectives:

At the conclusion of this session participants will be able to:

1. Describe the history, definitions, and requirements associated with human subjects’ research and the “common rule.”
2. Identify the key changes in the Common Rule.
3. Describe the requirements for institutional reviews regarding the categories of human subjects’ research.
4. Identify implications for future research.

### Presenters:

*Martha J. Greenberg, PhD, RN, Associate Professor, Pace University, Lienhard School of Nursing*

*Carol Royce, EdD, CPNP, FAAN, Associate Dean for Faculty Scholarship and Professor, Pace University, Lienhard School of Nursing*

*Carol Epstein, PhD, RN, FCCM, Associate Professor, Pace University, Lienhard School of Nursing*

## **Workshop 2: Establishing and Maintaining a Research Career: A Panel Discussion with Experts along the Path**

Columbia/Holland/Lincoln

Presenters will address successful strategies and lessons learned to develop and maintain a program of research from three different stages of a nurse researcher's career: early, mid, and late.

### **Objectives:**

1. Describe strategies to develop a successful program of research.
2. Analyze the features of an academic career that develops and maintains linkages between education, research, practice and/or service to the profession.
3. Explore the role of publication, presentations and funding in shaping a successful research career.
4. Explain common challenges in developing and maintaining a program of research.

### **Presenters:**

*Cheryl Tatano Beck, DNSc, CNM, FAAN, Distinguished Professor, University of Connecticut, School of Nursing*

*Jenna LoGiudice, PhD, CNM, RN, Assistant Professor, Fairfield University, Marion Peckham Egan School of Nursing and Health Studies*

*Xiaomei Cong, PhD, RN, Associate Professor, University of Connecticut, School of Nursing*

## **Workshop 3: International Collaboration in Nursing Research**

Essex/Liberty

Nursing researchers conducting international research in both clinical and community settings encounter a multitude of issues, beyond those experienced in the U.S. While guidelines for international research exist in every institution, implementation in the field requires research skills and sensitivities beyond the guidelines.

### **Learning Objectives:**

At the conclusion of this session participants will be able to:

1. Expand on collaboration issues in research to address international cultural and institutional issues.
2. Identify norms and expectations of the researcher's presentation and behavior and how the researcher presents 'self.'
3. Evaluate cross cultural and inter-institutional role expectations in the work relationships of conducting rigorous research.
4. Examine cross cultural communication issues, including confidentiality.
5. Assess the needs and ethical issues involved in multi-stakeholder expectations.

### **Presenters:**

*Robin Toft Klar, DNSc, RN, New York University, Rory Meyers College of Nursing*

*Keville Frederickson, EdD, RN, FAAN, Pace University, Lienhard School of Nursing*

*Madeline Naegle, PhD, CNS-PMH, BC, FAAN, New York University, Rory Meyers College of Nursing*

## **Workshop 4: "Oh the places you'll go..." Adventures of Early Career Nursing Scientists**

Skylands/Gateway

This concurrent workshop, hosted by the Early Career Nurse Scientist Research Interest Group, focuses on milestones encountered while establishing a successful career. Presenters will highlight academic options, advice for getting started on the doctoral journey and achieving academic success, launching a successful career trajectory and balancing competing life demands.

### **Learning Objectives:**

At the conclusion of this session participants will be able to:

1. Assist bachelor's and master's prepared nurses to differentiate doctoral degree programs.
2. Identify supportive mechanisms for academic and professional success.
3. Describe the fundamental building blocks of a successful research trajectory at key milestones in the early career.
4. Discuss methods for maintaining personal and professional sustainability.
5. Stimulate discussion and collaboration among early career nurse scientists regarding collective concerns and also, excitement as we move forward in our career trajectories.

*Concurrent Workshops continued*

**Presenters:**

*Julie Murphy, MSN, RN, The Pennsylvania State University, College of Nursing*

*Susan Moyer, MSN, RN, CNE, Villanova University, College of Nursing, Robert Wood Johnson Foundation Future of Nursing Scholar at Independence Blue Cross Foundation*

*Margaret Doerzbacher, RN, MS, NNP-BC, University at Buffalo School of Nursing*

*Michael M. Evans, PhD, MEd, RN, ACNS, CMSRN, CNE, Assistant Chief Academic Officer & Assistant Clinical Professor of Nursing, Pennsylvania State University, College of Nursing*

*S. Raquel Ramos, PhD, MBA, MSN, FNP-BC, Assistant Professor, New York University, Rory Meyers College of Nursing*

*Sandra Founds, PhD, CNM, FNP-BC, Associate Professor, University of Pittsburgh, School of Nursing*

**Workshop 5: Funding Opportunities: Strategies for Success**

*Salons 1-3*

This session will provide an overview of funding opportunities in a panel format made up of representatives from a variety of funding agencies. Attendees will be able to discuss issues and questions associated with funding, along with current challenges, training opportunities, and funding priorities.

**Learning Objectives:**

At the conclusion of this session participants will be able to:

1. Discuss the current funding priorities of a variety of selected funding agencies.
2. Describe available resources from selected funding agencies to facilitate application for funding.
3. Identify strategies to address potential challenges to successful funding.

**Moderator:**

*William Holzemer, RN, PhD, FAAN, Dean and Distinguished Professor, Rutgers, The State University of New Jersey, School of Nursing*

**Presenters:**

*David Banks, PhD, MPH, MSSW, RN, Program Director for Training, National Institute of Nursing Research*

*Ana F. Diallo, PhD, RN, MS, MPH, Clinical & Translational Postdoctoral Fellow (IRTA), National Institute of Nursing Research*

*Karen Huss, PhD, ANP-BC, FAAN, FAAIAI, FAHA, Program Director, Office of Extramural Programs, National Institute of Nursing Research, National Institutes of Health*

*Maryjoan D. Ladden, PhD, RN, FAAN, Senior Program Office, Robert Wood Johnson Foundation*

*Stephen C. Schoenbaum, MD, MPH, Special Advisor to the President, Josiah Macy Jr. Foundation*

**Workshop 6: Publishing: Methods Matter!**

*Salon D*

Attending this session will offer participants the opportunity to converse with selected editors and learn about publication priorities, guidelines for successful publishing, and finding the appropriate journal for manuscripts. There will also be a discussion about developing the methods section of your submission with a focus on challenges and strategies for successful publishing.

**Learning Objectives:**

At the conclusion of this session participants will be able to:

1. Discuss the qualities of successfully published manuscripts in selected journals.
2. List publication priorities from selected nursing journals.
3. Describe the importance of methodological rigor and strategies to strengthen methods sections of a publication submission.

**Moderator:**

*Veronica Feeg, PhD, RN, FAAN, Associate Dean and Director PhD Program in Nursing, Molloy College, School of Nursing*

**Presenters:**

*Donna M. Nickitas, PhD, RN, NEA-BC, CNE, FAAN, CUNY, Professor, Hunter-Bellevue School of Nursing and Executive Officer, The Graduate Center of the City University of New York and Dean Designee, Rutgers University School of Nursing-Camden*

*Margaret H. Kearney, PhD, RN, FAAN, Professor, Vice Provost & University Dean of Graduate Studies, Editor, Research in Nursing & Health (RINAH)*

*Elaine L. Larson, PhD, RN, FAAN, CIC, Anna C. Maxwell Professor of Nursing Research, Associate Dean of Scholarship & Research, Columbia University, School of Nursing*

Grab your breakfast, and join us as we host a panel of experts for dialogue on strategies to navigate a successful career trajectory, as an early career nurse scientist. Whether you are in your first semester of doctoral studies, getting ready to defend your proposal, graduate and find a post-doctoral opportunity, or trying to figure out how to cross the post-doctoral bridge into a faculty role, this session is for you! The objective of this session is to support early career nurse research and clinical scientists by addressing common milestones intrinsic to the academic journey. More specifically, this session will include interactive dialogue and discussion with a panel of four early career nurse research and clinical scientists, each distinguished by their career path and scholarship, and recent, and upcoming milestones.

## Learning Objectives:

At the conclusion of this session participants will be able to:

1. Provide peer support for potential areas of emerging nursing research, and clinical science, as they traverse their career trajectory.
2. Share knowledge and experience related to successful transition for the distinct milestones along the trajectory of a nurse researcher or clinical scientist.
3. Build and promote collaborative partnerships among early career nurse research and clinical scientists, across research and clinical content areas, and institutions in the northeast.
4. Identify stress reduction approaches for promoting good quality of life during important career milestones.

## Moderator:

*Julie Lynn Ross, MSN, RN, The Pennsylvania State University*

## Learning Objectives:

At the conclusion of this session participants will be able to:

1. Compare the innovative programs of research among the panelists and the contributions of their research to advancing care for individuals, families, and communities.
2. Describe the innovative strategies used by the nurse scientists for dissemination and implementation of their research findings into practice.
3. Appreciate the legacy of the panelists' research and the implications for policy now and in the future.

# HARRIET G. WILLIAMSON CHAIR OF POPULATION HEALTH NURSING

## ENDOWED CHAIR

The School of Nursing (SON) invites nominations and applications for the Harriet G. Williamson Chair of Population Health Nursing. This distinctive endowed chair honors the dedication and commitment of Ms. Williamson to providing compassionate and exemplary care to her nephrology patients.

We are seeking a leader and nurse scientist in the emerging field of population health nursing to advance nursing knowledge through research, scholarship, practice, education and policy. The successful candidate will collaborate with doctoral students and faculty from the school of nursing and the newly created John D. Bower School of Population Health, interdisciplinary researchers, and communities to develop the scholarship of population health, improve health through an ongoing program of research, and teach selected courses or classes in his or her area of expertise.

Primary responsibilities include: sustaining a program of research in population health; developing nurses, nurse practitioners, and nurse scientists to cultivate expertise in population health and population health management; and providing guidance and leadership in nursing, population health, and interdisciplinary curricula offerings.

## POSITION REQUIREMENTS

### ***Applicants should have:***

- Graduate level teaching experience, mentoring students and faculty
- sustained record of scholarship and research, preferably with extramural funding
- doctoral degree in nursing (preferred), although doctoral degrees in related fields may be considered
- MSN and be eligible for licensure as a RN in Mississippi
- ability to attain graduate faculty status and professorship

## THE UNIVERSITY OF MISSISSIPPI MEDICAL CENTER

Located in Jackson, UMMC is the only academic medical center in Mississippi and the health science center campus for the University of Mississippi (UM). UM is the state's largest university, with 23,780 students, and is classified as Carnegie category R1. UMMC received over \$65 million in extramural funding in 2017.

The SON offers students unmatched opportunities to learn and work in the communities we serve. Innovation and collaboration are key to our mission of providing leadership to shape the future of health and health care in Mississippi. Ten nurse practitioner-managed clinics provide unique interprofessional education, practice and research opportunities.

## TO APPLY

Applicants should send statement of interest with personal and professional attributes relevant for this position, a curriculum vitae and professional references to Dr. Kim W. Hoover, dean and professor, [khoover@umc.edu](mailto:khoover@umc.edu).
